

*You will need:*

20 base one cubes

20 base ten cubes

20 base hundred cubes for Primary 2

10 base thousand cubes for Primary 3

*General Suggestions*

Print out on light colored construction paper.

Cut out each cube carefully.

Use a zip lock bag for storage

You can line up the the different cubes to form the next higher place value. For example, ten hundred cubes placed together carefully looks identical to a thousand cube.

Gluing a felt backing to cubes enables you to use these on a felt board.
